

AQUATHERM

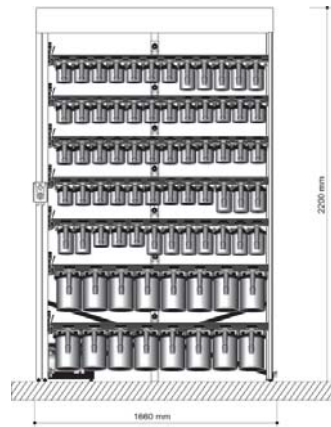

The absolute storage cabinet to protect your waterborne paints!

A VERSATILE SYSTEM WITH A GREATER FLEXIBILITY:

- ✓ Maximum capacity in a compact volume - Waterborne paint system can be extended while keeping the same equipment.
 - ✓ Great flexibility to configurate (Either half-liter up to large tins on a same shelf)
 - ✓ Lower shelf with an extra-large height (Possibility to store very large capacity toners, like clear coats...)
 - ✓ Back storage capacity for your spare 0,5-liter or 1-liter cans
 - ✓ 2x2 solid transparent sliding doors provide easy access to tins
 - ✓ Robust concept to accommodate the use conditions in body shops
 - ✓ Alu-zinc made for easy cleaning operations.
- ✓ **2 models available:** Fitted with storage shelves or suspended slots
Both models available in no-heated version or heated standard version.
Effortless heated retrofit kits for the no-heated version.

OPTIONAL ITEM

- ✓ Customized header board
